- 3. Energy communities, a win-win approach*

1. InterConnect, innovation at the service of energy.

Democratising efficient energy management: flexible and interoperable ecosystem with a people-centred approach

Objectives:

- Reduce customers' bills (consumption)
- Reducing the environmental impact of energy consumption
- Develop the use of renewable energy

A European project

TOTAL French pilot + all French actors 11.5% of the total project.

Greece

Large residential community with smart appliances and EV integration

France

Residential & non-residential, with tertiary buildings and apartments

Portugal

Residential & geographically widespread tertiary buildings

Netherlands

Residential & non-residential buildings

Germany

Groups of residential buildings and hotels

Belgium

residential and tertiary buildings in communities of multi-energy vectors

Italy

Residential social housing

A complex organisation

Plan :

- 1. InterConnect, innovation at the service of energy.*
- 2. From consumer to consumer-actor.*
- 3. Energy communities, a win-win approach.*

2. From consumer to consom'actor

1 The challenge of recruitment

All this in a context of great diversity :

- Climatic ;
- Cultural ;
- Social ;
- Economic.

The management of change

2. From consumer to consumer-actor

2 Awareness raising

Adaptation - conversion

Achieving savings

Monitoring consumption

Change management

2. From consumer to consumer-actor

3 Acting on it

The consumer-actor is a consumer who reclaims the act of consumption by using his or her purchasing power to protect the values and causes he or she defends

The 2 to 3 years that the experimentation lasts are also an opportunity for the consumer to get involved in the project through personal or collective actions:

- *Behaviours ;*
- *Investments;*
- *Improvements.*

Plan :

- 1. InterConnect, innovation at the service of energy.*
- 2. From consumer to consumer-actor.*
- 3. Energy communities, a win-win approach.*

Energy communities, a win-win approach.

Energy communities, a win-win approach.

Energy communities, a win-win approach.
