## Facts and figures

Renowned for showcasing results coming out of the EU Horizon 2020 Framework Programme via the participation of cutting-edge research and innovation projects, the scope of Sustainable Places is captured directly in the name. It involves designing, building and retrofitting the places we live and work in a more sustainable way.

Sustainable Places prides itself on being an **ideal platform for the dissemination of research**, the conduct of workshops, EU project clustering and networking between stakeholders of all types.

The 2019 edition in Cagliari gathered **180 registrants**, coming from both large industrial organisations, SMEs, research and academic organisations, public and local authorities as well as representatives of the European Commission.

The event also hosted **100 local area professionals** for an Environmental Training ; 70 attendees to a full capacity **EU Infoday & Brokerage Event**; 50 to a SmartEn City pre-event workshop; **15 Clustering Workshops** and **9 Inspiring keynotes**.

## 2020 edition

Sustainable Places 2020 will consist of:

- **Keynote** speakers
- Technical **paper** sessions
- Thematic **workshops** & EU project clustering
- **Exhibition** area (posters, brochures and prototypes)
- Local area **visits**
- Excellent people, **collaboration** and discussion

Each year, Sustainable Places features topics that are shaping how we think about **buildings and the built environment**.

Specific topics for this 2020 edition will include :

- Digital Twins
- Building Integrated Photovoltaics (BIPV)
- Circular Economy
- Local Energy Communities

A **high-level event** will also be hosted in cooperation with **ECTP** - the European Construction, built environment and energy efficient building Technology Platform - to celebrate the final year of the **EeB PPP** - Energy Efficient Buildings Public Private Partnership - and outline its follow-up and evolution over **Horizon Europe**.
