is coming to Madrid, Spain!**

*We look forward to welcome  
you this year in the wonderful  
sustainable city of Madrid*

**REM**  
RESEARCH TO MARKET  
SOLUTION

# “A decade of sustainability 2013-2023 „

Annually since 2013, Sustainable Places is organized by R2M Solution and features topics that are shaping how we think about **buildings, cities and systems**. Across all editions, it is open to topics related to sustainability and most often reflects priorities of the European Commission's Green Deal.

# About Sustainable Places

## Structure:

Sustainable Places is a 3-day event with:

- High-level keynote speeches
- Thematic clustering R&D workshops
- Technical paper sessions
- Poster area, exhibition & digital booths
- Both virtual and in-person networking

## Themes:

- Renewables facilitating the energy transition
- Digital construction and building renovation
- Smart cities, smart grids and energy communities
- Sustainable urban renewal and cultural transformation

# Benchmark event in the sector

- Participation of representatives of the European Commission
- Innovative research presentations and cutting-edge technology demonstrations from public and private institutions
- Companies from the energy and building sector
