ICONS

Networks to be engaged

30 networks to be reached and engaged via

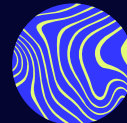

- Scientific publications
- Public webinars, social media & newsletter
- Clustering webinars & joint workshops
- Replication webinars of DISTENDER solution

Funded by
the European Union and

UK Research
and Innovation

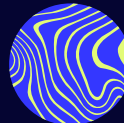

- What are the challenges in breaking down climate change research results and making them usable for policymakers?
- What role is the IPCC playing in networking and bridging the knowledge gaps between the large number of individual climate change networks?

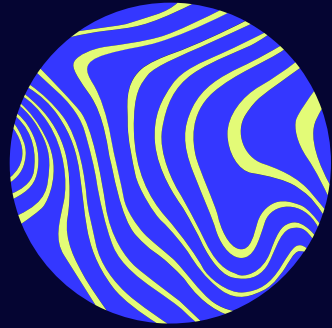

Funded by
