PLACE

KEY TRENDS

Reclaiming Experience

- The value of human interaction
- Emphasizing needs

Healthy Spaces

- Air quality
- Healthier living
- humidity control

Sustainability

- Carbon reduction
- Waste Management
- Material usage
- Biodiversity

NATURE

The common thread

Harmony with Nature

United Nations

THE RIGHTS OF NATURE

PURPOSE

Member States acknowledged that the Earth and its ecosystems are our common home, and expressed their conviction that it is necessary to promote Harmony with Nature in order to achieve a just balance among the economic, social and environmental needs of present and future generations

NATURES KEYSTONES

Predator

One that controls the density of important competitor or predator species.

Prey

A food source that is depended on by predators so, supports other species survival.

Modifiers

Those that adjust the landscape impacting others in the environment.

Plants

Those that provide a critical source of food and/or shelter for other species.

Mutualists

Two or more species that engage in reciprocally vital interactions. The disruption of one species impacts the other and, ultimately, the ecosystem as a whole.
