

✨ The Energy, Ideas, and Stories of Sustainable Places are Available for You!

It's hard to believe that **Sustainable Places** took place two weeks ago! We're still reflecting on the incredible moments, inspiring conversations, and the amazing energy that everyone brought to the event.

Whether you attended in person or followed along online, we want to make sure you can relive some of the best highlights.

☀ Closing Sustainable Places 2025 and Pointing Forward

With this newsletter, **SP2025 officially comes to a close**, and we're already turning our attention to **SP2026!** 🎉

Reflecting on SP2025, we really enjoyed Monte Rosa 91, a certified commercial building embracing many of sustainability themes of our research and its availability to conduct an SRI assessment, make a digital 3D model and certify Access4U.

It was excellent to hold thematic tracks across a series of interesting topics and to invite industrial professionals to join us. It was great to engage the organizations and technologies in our exhibition area and to learn more about what they do. **You can learn more about each of them in the sponsors article in this newsletter.**

Lastly, the castle tour, dinner, lunches breaks and networking time together were naturally the highlights of the event as it is each year in this community.

All the event highlights are now available:

- **Photos** from the event
- **Workshops and thematic track presentations**
- **Downloadable presentation slides**

We hope you got your SP2025 T-shirt — and we can't wait to see you next year, 2–4 December in Luxembourg, for the SP2026 coffee mug!

SP2025 Survey Feedback: don't forget to share your thoughts!

If you haven't done it already, please take a few minutes to complete our survey here.

Your feedback is incredibly valuable. It helps us understand what went well, what could be improved, and how we can make future editions even more engaging and tailored to your interests. Every comment makes a difference!

Relive the Energy

It's impossible to capture all the energy, inspiration, and connections that happened at **Sustainable Places**, but we've put together some special content so you can experience it all over again.

If you haven't seen it yet, don't miss our **Sustainable Places video!**

Thematic Tracks & Workshops

If you wish to revisit the key moments of Sustainable Places, all **thematic tracks** and **workshops** are now available on our **YouTube channel**.

Each session offers valuable insights, best practices, and perspectives shared by leading experts and professionals from across the industry. Whether you'd like to review a specific topic, explore new ideas, or simply relive the atmosphere of the event, the full content is ready for you to watch on demand.

Open Research Europe

The Open Research Europe (ORE) SP2025 collection is open for submissions!

Remember: workshop summaries make excellent contributions to this collection and are a fantastic way to share your project results with the community.

We warmly invite all submitters to check out [our collection link](#) and send a quick message to the Sustainable Places email (sustainableplaces@r2msolution.com) with your submission details — including title, authors, and associated EU project with grant ID — so that Open Research Europe stays fully informed.

Thanks to Our Sponsors, Projects, and Each of You

A heartfelt thank you to our sponsors and all the projects presented at Sustainable Places! Your support and contributions made this event possible and helped bring innovative ideas to life.

And of course, **a big thank you to everyone who joined us** — your participation made the event truly special.

Save the date: Sustainable Places 2026

As mentioned earlier, we're **thrilled to start looking ahead to SP26**, taking place **2–4 December in Luxembourg!**

If you'd like to get involved — whether through **sponsorships, workshops, or other initiatives** — we'd love to hear from you.

It's a wonderful chance to help shape the event and connect with our vibrant community.
